LUGGAGE RESTRICTIONS

Due to the size of the luggage compartments in the planes used to get guests into the camps, luggage is limited to soft bags with dimensions of 25cm (10 inches) by 30cm (12 inches). No wheels or frames allowed as this restricts the possibility to get them into the hold under the plane. If guests travel with incorrect luggage they may have to repack into soft bags (provided at a cost by Safari Logistics) and their "other" suitcase may be left behind or transported to the end location at a cost. Luggage weights cannot exceed more than 20Kgs in total (checked and hand luggage). For additional camera equipment or overweight luggage, additional seats can be bought prior to departure.

Guest weights are required prior to travel so pilots can arrange the balance and overall weight of the plane in order to safely transport guests to the remote locations the camps are situated. Guests that do not give their weights prior to travel may be refused boarding for safety reasons.
